Manchester 2.0 Full-Zip Fleece Vest - Insulating Recycled Work Vest

Description

The Manchester 2.0 fleece vest is a versatile insulating mid-layer designed to provide warmth, comfort, and freedom of movement in demanding work environments. Worn on its own or as a layering piece under technical outerwear, it delivers effective thermal insulation while remaining lightweight and highly functional.

Made from 100% recycled polyester fleece, it combines comfort with a more sustainable approach. Its ergonomic design and extended back hem provide additional protection against cold and wind during outdoor or industrial activities.

Technical Features

- Certified to EN 14058:2017: 1, X, X, X
- Certified to EN 14058:2017: 1, 3, X, X (in combination with reference 71261)
