Kensington S3S Low Safety Shoes - Comfort and Grip by Helly Hansen

Description

The Kensington S3S low safety shoes are designed to deliver the perfect balance of protection, comfort, and performance for demanding work environments. Inspired by the modern urban tradesman, they combine advanced technologies and technical materials to meet the needs of professionals on the move all day.

Featuring HH DUAL-STRIDE TECHNOLOGY, which combines EVA and eTPU, these shoes provide excellent cushioning, enhanced stability, and optimal energy return to reduce fatigue during long working hours. The water- and abrasion-resistant knit uppers, reinforced with TPU overlays, offer durability and protection in high-wear areas, while the lightweight composite toe cap and anti-perforation midsole deliver superior safety without adding metal.

Technical Features

- S3S safety standard
- HH DUAL-STRIDE TECHNOLOGY midsole (EVA + eTPU) for cushioning, stability, and energy return
- Water- and abrasion-resistant knit uppers
- TPU molded toe bumper and heel overlay for enhanced protection
- Lightweight composite toe cap
- Metal-free anti-perforation protection
- Open-cell PU insole: lightweight, breathable, and moisture-managing
- Breathable mesh lining for optimal ventilation
- HELLYGRIP rubber outsole for excellent traction
- TPU reinforcements at the toe and heel for added durability

Key Benefits of Kensington S3S

- Long-lasting comfort with high-performance cushioning
- Reduced fatigue with optimized energy return
- Excellent breathability for all-day wear
- Enhanced protection against impacts and mechanical hazards
- Lightweight construction with composite toe and metal-free protection
- Reliable grip with HELLYGRIP outsole for professional environments

- Modern urban-inspired design for style and functionality
