625-lumen rechargeable headlamp with white, red, green and blue lighting

Description

The PETZL ARIA 2R RGB headlamp is a compact, rechargeable and durable lighting solution designed for regular use in demanding environments. It delivers up to 625 lumens of white light and features a wide beam for close-range tasks, as well as a mixed beam that makes moving around easier.

Its distinctive feature is the choice of red, green and blue lighting, available in steady or flashing modes. These colour options allow users to adapt the lighting to different field requirements, including preserving night vision, improving map reading or maintaining discreet illumination. Three white-light levels are also available to adjust brightness and battery life.

Supplied with a rechargeable CORE battery, weighing just 95 g and built for durability, the ARIA 2R RGB is suitable for professionals looking for a versatile headlamp for maintenance, inspections, technical operations and field activities. Dustproof and waterproof (IP67), impact-resistant (IK07) and drop-resistant from up to 2 metres, it is also compatible with three AAA/LR03 batteries as an alternative power source.

Technical specifications
- Maximum brightness: 625 lumens (ANSI/PLATO FL 1)
- Weight: 95 g
- Beam types: wide and mixed
- Available light colours: white, red, green and blue
- Colour lighting modes: steady or flashing
- White-light levels: MAX BURN TIME, STANDARD and MAX POWER
- Main power source: rechargeable CORE battery, 1250 mAh / 3.6 V / 4.5 Wh (included) - Alternative power source: 3 AAA/LR03 batteries (not included)
- Battery compatibility: alkaline, lithium or Ni-MH rechargeable batteries
- Charging time: 3 hours 30 minutes
- Waterproof rating: IP67
- Impact resistance: IK07
- Drop resistance: up to 2 metres
- Mounting compatibility: compatible with Petzl HELMET ADAPT and SLOT ADAPT accessories -

Certification: CE
- Warranty: headlamp 5 years; CORE battery 2 years or 300 charging cycles

Lighting performance with the CORE rechargeable battery:
- MAX BURN TIME: 7 lumens, 10 m range, 100 h burn time
