1200-lumen rechargeable headlamp featuring intelligent REACTIVE LIGHTING technology

Description

The PETZL SWIFT RL headlamp is a powerful, compact and lightweight rechargeable lighting solution designed for activities requiring reliable visibility and freedom of movement. Delivering up to 1,200 lumens while weighing just 92 g, it offers an excellent balance of lighting performance, comfort and compactness.

It features REACTIVE LIGHTING® technology, which automatically adjusts the brightness of the beam according to ambient light conditions using an integrated sensor. This intelligent lighting system adapts illumination to the surrounding environment while helping optimise battery life. STANDARD LIGHTING mode is also available to maintain a constant level of brightness.

Its mixed beam, combining wide and focused lighting, provides excellent visibility at both close and long distances. The headlamp also features a red light with steady and flashing modes to improve the user's visibility when required. Its ultra-thin, adjustable and flexible headband ensures a comfortable and stable fit during use. The 2,250 mAh rechargeable lithium-ion battery is positioned at the rear of the head to ensure balanced weight distribution. Charging is carried out via USB-C.

Powerful, lightweight and versatile, the PETZL SWIFT RL is a reliable lighting solution for outdoor activities, movement in low-light environments and situations requiring high-performance, comfortable hands-free lighting.

Technical specifications
- Maximum brightness: 1,200 lumens
- Weight: 92 g
- Lighting technologies: REACTIVE LIGHTING® and STANDARD LIGHTING
- Beam pattern: Mixed (wide and focused)
- Maximum beam distance: 168 m in REACTIVE LIGHTING® MAX POWER mode
- Battery life: Up to 70 hours depending on lighting mode
- REACTIVE LIGHTING® mode: Automatic brightness adjustment according to ambient light conditions
- STANDARD LIGHTING mode: Constant lighting output

- Red lighting: Steady and flashing modes
- Flashing red light visibility: Up to 750 m
- Power supply: Rechargeable 2,250 mAh / 3.85 V / 8.47 Wh lithium-ion battery
- Charging: USB-C
- Charging time: 5 hours
- Water resistance: IPX4 (weather-resistant)
- Headband: Ultra-thin, flexible and adjustable
- Additional feature: BOOST mode delivering 1,200 lumens for 6 seconds
- Certification: CE
- Warranty: Headlamp: 5 years; rechargeable battery: 2 years or 300 charging cycles

Caractéristiques

- Weight : 92 g
- Puissance maximale : 1 200 lumens
