Lightweight and versatile 600-lumen rechargeable headlamp for low-light environments.

Description

The PETZL NAO LT headlamp is a lightweight, high-performance rechargeable lighting solution designed for activities requiring reliable illumination and freedom of movement. Delivering up to 600 lumens, it provides powerful, uniform lighting to help users move efficiently in low-light environments.
Weighing just 90 g, it offers excellent wearing comfort thanks to its thin, breathable and ergonomic headband. Its rear-mounted CORE rechargeable battery ensures balanced weight distribution. The headlamp also features a flashing red rear light to improve the user's visibility. The NAO LT offers three white lighting modes to adapt brightness and battery life to different requirements: MAX BURN TIME to maximise runtime, STANDARD to balance brightness and battery life, and MAX POWER to provide maximum output of 600 lumens.

Thanks to its HYBRID CONCEPT technology, it operates with either the supplied CORE rechargeable battery or three AAA/LR03 batteries. USB-C rechargeable and weather-resistant with an IPX4 rating, the PETZL NAO LT is a versatile lighting solution for outdoor activities, movement in low-light environments and situations requiring a lightweight, high-performance headlamp.

Technical specifications
- Maximum brightness: 600 lumens
- Weight: 90 g
- Beam pattern: Wide and uniform
- Lighting modes: MAX BURN TIME, STANDARD and MAX POWER
- Maximum beam distance: 75 m with CORE battery
- Battery life: Up to 85 hours depending on lighting mode
- Runtime at maximum brightness: 2 hours
- Rear lighting: Flashing red light, visible up to 250 m
- Power supply: CORE rechargeable battery (1250 mAh / 3.6 V / 4.5 Wh) or 3 AAA/LR03 batteries
- Charging: USB-C
- Charging time: 3 hours 30 minutes
- Battery compatibility: Alkaline, lithium or rechargeable Ni-MH batteries
- Water resistance: IPX4

- Headband: Thin, breathable, reflective, removable and washable
- Additional feature: LOCK function to prevent accidental activation
- Eco-design: 45% recycled or biosourced materials
- Certification: CE
- Warranty: Headlamp: 5 years; CORE battery: 2 years or 300 charging cycles

Caractéristiques

- Weight : 90 g
- Puissance maximale : 600 lumens
