SOUND AND VISUAL ENVIRONMENT SIMULATOR WITH TABLET

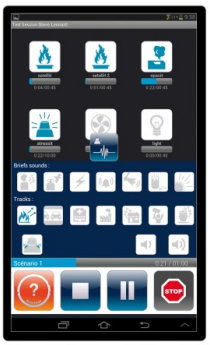

https://www.securhit.com/en/training-accessories/156-simulateur-d-ambiance-sonore-et-visuel-avec-tablette.html

To use with smoke or flames generator

Description

This sound and visual environment simulator can be combined with a flame or smoke generator to enhance the realism of fire safety and evacuation training exercises.
An amplifier cone provides an extremely realistic sound environment and integrated lighting for a visual atmosphere. The device comes with 7 5-minute scenarios plus 7 interactive sounds: domestic fire, industrial disaster, car park fire, ERP fire, hospital evacuation, event management and intervention in sensitive urban areas.
Triggered by a 7-inch Bluetooth-enabled training tablet. The battery-operated tablet is supplied with a protective shell and a carrying case.
Main power supply: 230 V / 50 Hz - Secondary: 12 V / 7 Ah lead battery
4 hours autonomy - IP 54
Dimensions: 300 x 300 x 300 mm - Weight : 5 kg
Delivered with a carrying bag
This simulator is an ideal device to increase the realism of a training exercise to be used with a flame or smoke generator.
