Versatile and lightweight rope winch designed for rescue

Description

The Lokhead is a practical winch, with 2 speeds, versatile and compact which enable to lift or low charges or persons during work at height or rescue.
Its exclusive brakinf system (with lever for easy manipulation of the system) also allow the descent at the desire height and speed.
Ration in fast speed 13,1/1, ration in low speed 39,9/1, maximum lifting charge 500 kg (limited to 240 kg for the people).
Works with statics cords EN 1891 from 10 to 12.7 mm.
The reversible plate allows to use the winch with the right or the left hand or to moore it during using in tension.
A supplied adaptator is used to assemble the winch on the tripod legs (for most of the tripod from the market, of round or square section) and on rescue bipods.
Sizes with reversible plate : 742 x 543 x 311 mm / weight : 7.5 kg.
The Lokhead winch is supplu in full kit, including the winch, the crank, the braking lever, the reversible plate, the tripod adapter, an adjustable strap with 2 carabiners and the user manual.

Certification CE EN 13157 :2009, conform EN 1496 :2007 class B, conform to Directive Machine 2006/42/EEC and to its extension 95/16/EEC.
