Description

The rechargeable glass-filled nylon polymer LED flashlight offers 3 microprocessor-controlled brightness modes and a strobe function. This light has an impressive 6.5 hours runtime in full brightness mode. The 1100 lumen output in combination with the high efficiency deep parabolic reflector design projects a usable light beam of 350 meters. This light has a two-button design, one switch located on the waterproof body of the light and one in the rear cap (rear cap and bezel made of 6061-T6 aircraft grade aluminium with a Type III hard anodised finish).

The torch also has a non-slip handle, is shock and chemical resistant and IP-X7 Waterproof.

The two switches work in tandem with each other. Meets NFPA-1971-8.6 (2013) requirements.

Includes rechargeable lithium-ion battery and wall or vehicle mounted charger as well as AC and DC power and anti-roll ring

Caractéristiques

- Weight : 286 g
- Length : 226 mm
- Handle diameter : 30 mm
- Head diameter : 41 mm
- Handle diameter : 30 mm
