

SHOUTBOX Mask

<https://www.securhit.com/en/rescue-mannequins/18-cagoule-pour-boitier-shoutbox.html>

Mask for Shoutbox voice broadcasting box

Description

The SHOUTBOX mask can be used in conjunction with any Ruth Lee Adult Training Manikin and will radically change the way in which rescue training is carried out.

The ShoutBox is an interactive voice recorder which allows the instructor to record a message specific to the day's training exercise.

For example, in a search and rescue exercise, the instructor can have the dummy call out a pre-recorded message to rescuers of its presence. The ShoutBox can emit sounds in a loop or have the message play by sound activation.
