Main bag for avalanche search and marking

Description

The main bag is equipped with a pennant system to mark the avalanche, the safe retreat area, the probe areas, the found objects, the echoes obtained by the avalanche rescue devices and the dog team markings.

The main bag includes:

- 4 Chasubles (1 operation leader, 2 wave leaders A and B and 1 doctor) as well as a command post banner with elastic bands for attaching sticks.
- 240 pennants to mark the avalanche zone, the probed zone, the escape route, and the contact points (object found, dog marking point and DVA contact).
- 1 loudspeaker to direct the operations and 1 powerful whistle for the spotter to give the alert in case of over-avalanche.
- 1 secretarial booklet for taking notes.
- 1 can of snow to mark the helicopter landing zone.

Caractéristiques

- Length : 75 cm
- tare weight : 3.7 kg
