

WINCH ACX 2 BATTERIES

<https://www.securhit.com/en/treuil-tripodes-et-antichutes/188-treuil-acx-2-batteries.html> ACX electric rope winch

Description

The ACX battery-powered rope winch is a motorized system designed to transport people or loads in hard-to-reach areas where work must be done occasionally or regularly.

The ACX also allows for countless rescue scenarios to be performed effortlessly and efficiently. In combination with a safety rope and a rescue rope, the ACX is a very flexible system for easy and economical cleaning and maintenance.

It can be operated by remote control from a distance up to 150 m.

Caractéristiques

- Weight : 13 kg
