

THERMAL POWER COMPACT ROPE WINCH

<https://www.securhit.com/en/winches-tripods-and-fall-arrest-systems/192-treuil-a-corde-thermique-power-compact.html>

Light and versatile thermal rope winch for work at height and rescue

Description

The rope winch with Honda thermal engine, designed to be used with static rope type A, EN1891 standard, from 10 to 13 mm in diameter, is usable in work at height, construction, rescue, wind power, events, etc... A 4-stroke Honda GX35 engine with a displacement of 38.5 cm³ and a power of 1.3 hp.

The non-aggressive winch allows for multiple turns of the rope and thus the use of wet or frozen ropes on the up and down.

A safe braking system controls the descent speed and protects the operator from free falls, by jaws that prevent fingers or clothes from getting caught. It is non-aggressive and protected, with stainless steel shafts and gears requiring no maintenance.

The Power compact rope winch is CE certified and complies with the Machine Directive.

Caractéristiques

- Weight : 14 kg
- Lifting force by reeving : 1500 kg
- Direct pull lifting force : 275 kg
