Flexible protection for fixed rope

Description

The PROTEC flexible protection is designed to protect the fixed rope from a friction zone when working at height or in rescue situations. Easy to install and durable, it is made for regular to intensive use. PROTEC's versatility makes it suitable for all diameters of professional ropes, as well as mooring straps.
Fixed rope protection designed for regular to intensive use with its flexible, lightweight, high-strength TPU (PVC-free) cover and hook and loop fastener.
It is easy to install, with two pull tabs for easy opening and a good grip on the clamp for quick and easy installation on the rope.
It is also a versatile protection that can be used in both directions, clamp up or clamp down, it is suitable for different diameters of professional ropes and can also protect a CONNEXION type mooring strap.
