

MASS RESCUE TRAINING MANIKIN

<https://www.securhit.com/en/rescue-mannequins/197-mannequin-d-entrainement-pour-sauvetage-en-masse.html>

Fabric manikin for simulation of victims' huge number.

Description

Fabric manikin resistant and washable, made to simulate victims in high number where bodies are required to be seen but not necessarily rescued.

Constructed in a resistant polyester and filled with flame retardant foam pieces.

Lightweight (4Kg) for easy handling.

Possibility of folded storage, like a suit.

Height 180 cm.

Tough enough to withstand being buried under concrete or steel linetls, driven over by 4x4 vehicle, or dropped from a 2nd floor window without damage. It is water repellent, making it suitable for wet or foul scenarios.

Caractéristiques

- Weight : 4 kg
- Size : 1.8 cm
