

MANIKIN FOR HELICOPTER

<https://www.securhit.com/en/rescue-mannequins/205-mannequin-d-entrainement-au-sauvetage-aquatique-helitreuillable.html>

For helicopter based water rescues

Description

Constructed from robust nylon mesh.

Specially designed to sit in a stable "W" position whilst winched to the helicopter.

Depending on the redistribution foam pieces within the overalls, It Floats horizontally, vertically or at 45 degrees, to simulate a live person or dead body.

Easily visible thanks to the orange overalls and the reflective tape

The feet are constructed to allow rapid drainage to prevent too much water in the helicopter.

Dry weight : 40 Kg / Wet weight : 65 Kg / Height : 180 cm

Caractéristiques

- Height : 1.8 m
- Dry weight : 40 kg
- Wet weight : 65 kg
