

THERMAL IMAGING HOOD

<https://www.securhit.com/en/rescue-mannequins/206-cagoule-thermique-pour-mannequin-d-entrainement.html>

Special hood for victim search training

Description

This robust hood can be worn by any Ruth Lee adult water rescue manikin for better imaging for search and rescue teams who use helicopters and drones to locate casualties.

Works with a Waterproof and rechargeable 6 amp battery that offers 4 hours operational time (depending on the water temperature).

Visibility on camera tested to an altitude of 2000ft.

Strong, woven material allows for the fast dispersal of heat across the garment.

The hood, battery and charger come complete in a bag for storage.

Caractéristiques

- Specificity : Fonctionne avec une batterie rechargeable et waterproof qui offre 4 heures d'autonomie (en fonction de la température de l'eau).
- Practical : Visibilité sur caméra testée à une altitude de 600 m
