

PODIUM WORK SEAT

<https://www.securhit.com/en/harnesses-and-belts/209-sellette-de-travail-podium.html>

PETZL PODIUM harness for extended suspension with two gear loops and a rear hook. Adjustable suspensions with DOUBLEBACK self-locking buckles.

Description

Long-duration work at height on ropes? Prolonged suspension requires comfort and safety. The fifth wheel is the accessory of choice for construction professionals, thanks to its many advantages.

- A comfortable, wide and perfectly balanced seat, with rigid edges to prevent compression of the thighs by the suspension straps.
- DOUBLEBACK self-locking buckles for easy line adjustment
- Two pre-shaped gear loops (one on each side of the harness)
- A rear hook for easy positioning of the harness in the back

The PETZL PODIUM harness can be connected to the ASTRO BOD FAST and ASTRO SIT FAST harnesses by means of two shackles (C087AA00).
