Sherpa model, lightweight, ergonomic and stable

Description

The Sherpa 83 NV carrying frame is a professional carrying device designed for transporting tools and equipment during field operations. Its lacquered aluminum structure with anti-wear pads ensures excellent durability while keeping the equipment lightweight.

Made with 1680 denier polyamide textile and high-density foam, it offers optimal durability and easy maintenance thanks to its detachable and washable design.

OPTIMIZED COMFORT AND ERGONOMICS

The Sherpa 83 NV frame is equipped with:

- Ergonomic mesh-lined shoulder straps for improved ventilation
- Wide abdominal belt for enhanced stability
- Ventilated back support with lumbar pads to reduce fatigue
- 5-position size adjustment to adapt to the user's body shape
- Load stabilizer, chest buckle, and carrying handle

TECHNICAL SPECIFICATIONS

- Dimensions: H 83 x W 35 x D 40 cm
- Platform depth: 26 cm
- Weight with Spider system: 3.8 kg
