G4 / Sherpa Backpack Frame Fastening Straps □ Set of 2

Description

The Spider fastening straps for G4 / Sherpa backpack frames are designed to secure equipment quickly and reliably during field operations. With their quick-release buckle system, they allow efficient attachment of fire hoses, hose bags, or other gear directly onto the Sherpa backpack frame. Connected to a central metal ring for alignment, these straps ensure balanced load distribution and reliable stability of your equipment while on the move. Made from durable black Cordura, they provide excellent wear resistance, making them ideal for intensive professional use in challenging conditions. Perfect for rapid interventions, these straps make it easy to transport essential equipment for forest fire fighting, emergency response, and rescue operations.

Key Features:

- Compatible with G4 and Sherpa backpack frames
- Spider-style quick fastening straps
- Quick-release buckles for fast setup
- Central metal ring for optimal alignment
- Material: durable black Cordura
- Allows secure attachment of fire hoses or hose bags
- Set of 2 straps

Designed for professional field operations, these fastening straps are an essential accessory for organizing and securing equipment on Sherpa backpack frames.
