□Savoyard□ Water Carrier Vest 30 L - Professional Forest Fire Fighting Equipment

Description

The □Savoyard□ 30 L water carrier vest is designed for professionals involved in forest fire fighting, offering excellent mobility, balance, and efficiency, even in steep or hard-to-reach areas. Its vest-based water carrying system distributes the weight evenly, allowing users to maintain freedom of movement during demanding field operations. Made from polyurethane-coated polyester, the vest is lightweight, highly resistant to abrasion, and durable against tears and snags. It features an internal bladder, telescopic pump, and wide adjustable ergonomic shoulder straps to ensure optimal comfort during use. The spray nozzle can be adjusted from mist to straight stream, with a range of up to 12 meters, providing effective firefighting capability. The 1-meter pump hose mounted on a swivel connector ensures flexibility and ease of handling. For improved visibility and safety, the vest includes retro-reflective markings and complies with fire classification M2/B1.

Key Features:

- Capacity: 30 L
- Filling cap diameter: 90 mm
- Jet range: up to 12 m
- Telescopic pump with 1 m flexible hose
- Polyurethane-coated polyester construction - lightweight and abrasion resistant
- Adjustable ergonomic shoulder straps
- Retro-reflective safety markings
- Fire classification: M2/B1

Designed for wildfire response and forest firefighting operations, the Savoyard water carrier vest provides reliable performance, comfort, and safety for field professionals.
