

ATTRAC TOOL MAGNETIC PLATE

<https://www.securhit.com/en/harnesses-and-belts/259-plaque-magnetique-attrac-tool.html>

Magnetic plate to fix your tools

Description

The ATTRAC'TOOL can be placed on the belt or the shoulder of the full body harness. You choose the most convenient location for you!

The ATTRAC'TOOL can be positioned horizontally or vertically, depending on the tools and work situations. If you choose to attach your ATTRAC'TOOL to the belt of the harness, a strap holds the plate firmly along the thigh. This is to prevent it from lifting up when you pick up a tool.

This strap can also be used to hang your plate, for example, from the railing of a gondola.

Caractéristiques

- Materials : Acrylonitrile butadiène styrène / Polystyrène exp
