

SPELEO TECHTONIC STATIC ROPE 10 MM / 200 M.

<https://www.securhit.com/en/caving-and-canyoning/268-corde-statique-speleo-techtonic-10-mm-200-m.html>

10 mm diameter semi-static rope suitable for canyoning and caving.

Description

Very supple and robust, the Techtonic 10 is ideal for canyoning and caving. Its sheath, which is made from twisted threads, guarantees a strong grip and very high abrasion resistance. Its LongLife treatment provides it with increased durability by protecting it against dust and moisture infiltration.

Very supple and robust rope to guarantee safe caving or canyoning for you

- For use in caving or canyoning.
- Very light and supple in the hand.
- Its construction and diameter guarantee perfect control when descending.
- Suitable for all levels of club user.

Extended life span, sheath protected against moisture and usage comfort

- Twisted sheath threads for better grip and higher abrasion resistance.
- The LongLife treatment enables increased protection against dust and moisture infiltration by impregnating each thread in the sheath individually.
- Durable over time.
