

ARIA 1R HEADLAMP YELLOW/BLACK

<https://www.securhit.com/en/eclairage-a-main/271-lampe-frontale-aria-1r-jaune-noire.html> ARIA 1R headlamp

Description

The ARIA 1R headlamp is designed for frequent use by professionals, with a robust construction: the headlamp is shockproof (IK07) and drop proof (up to 2 metres), dustproof and waterproof (IP67), with a wide, even beam for comfortable vision when working close to hand, and three levels of white light: MAX BURN TIME (maximum autonomy), STANDARD (best power/autonomy balance) and MAX POWER (maximum power).

It's easy to use:

- single button for quick and easy selection of light level,
- a base plate that makes it easy to turn the lamp in the desired direction,
- indicator light when the lamp is switched on and off, so you can check the battery level,
- LOCK function to prevent accidental switching on during transport/storage.

Practical and rechargeable:

- symmetrically adjustable headband for easy adjustment, removable and washable,
- plate compatible with accessories for mounting the headlamp on a helmet (HELMET ADAPT adhesive plate for all types of helmets or SLOT ADAPT plate for helmets with a compatible slot),
- supplied with the CORE rechargeable battery, ARIA 1R is also compatible with three AAA/LR03 batteries (not supplied), thanks to the HYBRID CONCEPT construction,
- the lamp detects the energy source and optimises lighting performance.

Certifications: CE, UKCA

Caractéristiques

- Power : 450 lumens
- Weight : 94 g

- Charging time : 3H30
