

ARIA 2R HEADLAMP YELLOW/BLACK

<https://www.securhit.com/en/eclairage-a-main/273-lampe-frontale-aria-2r-jaune-noire.html> ARIA 2R headlamp

Description

With 600 lumens, the compact rechargeable ARIA 2R has been specially designed for use by maintenance and craft professionals.

It is robust, shock-resistant (IK07) and drop-proof (up to 2 metres).

It is also waterproof and dustproof (IP67), making it suitable for a wide range of working conditions.

Easy to use, it has a single button for access to all the lamp's functions. Its wide, even beam provides comfortable close-range lighting, while its mixed beam makes it easy to move around and provides comfortable vision for work at hand.

Practical, it can be worn on the head, around the neck or on any type of helmet, thanks to the attachments available as accessories.

Certifications: CE, UKCA

Supplied with a rechargeable CORE battery, ARIA 2R is also compatible with three batteries, thanks to its HYBRID CONCEPT construction.
