

NAO RL HEADLAMP

<https://www.securhit.com/en/eclairage-a-main/274-lampe-frontale-nao-rl.html> NAO RL powerful and lightweight headlamp

Description

Travelling light that automatically adapts to ambient brightness:

- wide, even beam for comfortable visibility at hand or at your feet,
- mixed beam (wide and focused) for seeing close up and at a distance so you can move around,
- three levels of white light: MAX BURN TIME (maximum autonomy), STANDARD (best power/autonomy balance) and MAX POWER (maximum power),
- greater autonomy, visual comfort and reduced handling with REACTIVE LIGHTING® mode: lighting power and beam shape adapt automatically, using a luminosity sensor to optimise battery use,
- guaranteed minimum operating time of 5 hours in REACTIVE LIGHTING® mode (STANDARD level) for long activities such as trail running and ultra-trails,
- fixed or flashing red light on the back of the headlamp. A separate button enables it to be activated or deactivated quickly.

Power supply: 3200 mAh rechargeable lithium-ion battery (included)

Waterproofing: IPX4 (weatherproof)

Certification(s): CE

Caractéristiques

- Power : 1500 lumens

- Weight : 145 g
- Charging time : 3H30
