

PIXA 3R HEADLAMP

<https://www.securhit.com/en/eclairage-atex/278-lampe-frontale-pixa-3r.html> Pixa 3R headlamp

Description

The Pixa 3R Atex headlamp with adjustable multibeam is suitable for work within easy reach, on the move and for distant vision, including in explosive zones (zone 2).

Two settings available:

- Standard = balance between power and autonomy, max autonomy = priority to autonomy (up to 12 hours).
- Max power = priority to power (55 lumens).

The lamp housing can be rotated up to 45° to direct the light as required, it has a storage position to protect the glass and prevent it from being switched on, an operating time indicator, a reserve light output of at least 5 metres for 2 hours when the battery is almost flat, it is waterproof to -1 m for 30 minutes (IP 67) and is resistant to chemicals.

The lamp is powered by a 930 mAh Li Ion Polymer battery (1-year guarantee).

Supplied with mains charger and battery.

Certification: CE 0080 / Atex Ex ic IIB T4 Gc.
