

TRANSLUCENT HEAT-SHRINKABLE TUBING 12-4 / 0.6 M

<https://www.securhit.com/en/ropes-and-cords/292-gaine-thermoretractable-translucide-12-4-06-m.html>

Translucent heat shrink tubing

Description

Translucent, heat-shrinkable tubing for the protection of knots or terminations and rope markings. GREMTUBE® GFEP 1.3:1 is a high performance, highly flame retardant, modified fluorinated ethylene propylene (FEP) heat shrink tubing.

GREMTUBE® GFEP 1.3:1 offers an excellent optical clarity, a good flexibility, excellent temperature performances, an excellent resistance to chemicals and a low friction coefficient.

GREMTUBE® GFEP 1.3:1 is suitable for high end, critical applications, typically: military, aerospace, medical and optical sectors.

Caractéristiques

- Material : Polyoléfine réticulée
- Temperature : -200°C jusqu'à +205°C
- Diameter before swaging : 12 mm
- Diameter after swaging : 4 mm
