

FOG MACHINE STRATUS

<https://www.securhit.com/en/smoke-simulation/3-machine-a-fumee-inox-stratus-2600-w.html>

Fog machine, 2600 Watts, entirely made of stainless steel and specially design for the training

Description

The compact fog machine Stratus can easily fill of smoke/fog a warehouse or a huge size workshop and it can work vertically by adding a lot of realism to the simulation.

Its shell entirely made of stainless steel resists particularly to chemicals liquids aggressions, to condensation and it has larges aerations holes to avoid all overweight as well as a receiver to position directly a can of 5 litres of fluides.

The control board which buttons are protected against dust and fluides, is equipped of Leds for a simple and smart use.

Numerical setting by steps of 1% of the fog density from 1% to 99% and possibility if continuous flow up to 48%.

The integrated timer allow to set the duration of the emission and also the pause times.

Electric power 2600 Watts and heat-up time of 7 mintes!,

Sizes: 53 x 25 x 24.5 cm, weight 12.7 kg (without fluide).

Supply with wire remote control with 10 meters of cable(wireless in option), 5-litres smoke fluid and a plastic box from 60x40x32,5 centimeters

The fog machine Strtis is waranty 1 year.

Caractéristiques

- Dimensions : 53 x 25 x 24,5 cm (sans liquide)
- Weight : 12,7 kg
- Electrical power : 2600 Watts
- Warm-up time : 7 minutes
