

NEPTUNE TRAINING EXTINGUISHER WITH HANDLE 6L AUXILIARY PRESSURE

<https://www.securhit.com/en/training-accessories/30-extincteur-de-formation-neptune-a-poignee-6l-pression-permanente.html>

Fire extinguisher for training and education

Description

The Neptune Adjustment Knob Projected Fire Extinguisher allows course participants to become familiar with all the procedures they need to know when faced with a real fire. Equipped with an adjustment knob on the top and a handle attached to the hose.

The extinguisher can be filled either manually by opening the head by the collar or without opening it thanks to the automatic Neptune system through the connection crimped on the hose.

Compressor not included.

It is not necessary to use one or both refills, it is possible to pressurize the extinguisher with air.
