Description

The MICA IL-6400 projector has 4 LEDs, a power output of almost 1600 tested lumens, an operating time of up to 24 hours and a precise battery charge level indicator.

Designed to deliver maximum lumens for use as a research lamp, the MICA IL-6400 is a multifunctional hand-held lamp.

The IL-6400 uses four high-power Cree LEDs with a lifespan of around 50,000 hours.

As well as a battery charge level indicator, the IL-6400 warns you when it's time to recharge by flashing the beam when the battery is very low.

All IL-6400 hand-held lamps are supplied with a carrying strap.
