

AR100 SHUT-OFF VALVE WITH LID

<https://www.securhit.com/en/valve-fittings/311-vanne-d-arret-a-opercule-ar100.html>

Lenticular valve

Description

Lenticular gate valve for hydrants and hydrants, for fine-tuning flow and pressure.

The "multi-turn" lenticular valve operation prevents water hammer and the damage that could occur to pipes when closing too quickly.

Technical features :

- Equipped with precision handwheel
- Valve body: brass
- Closing: multi-turn
- Diameter : AR100
- Operating pressure: 16 bar

Caractéristiques

- Diameter : 100 mm
