Yellow Plastic Backpack Pump - Professional Forest Fire Equipment

Description

The yellow plastic backpack pump is an essential tool for forest fire fighting and wildfire interventions. Its backpack carrying system makes it highly practical and easy to handle, even on rough terrain. Equipped with a long-range nozzle (8□12 m) and a flexible, anti-kink hose, it allows you to reach fire hotspots efficiently while providing maximum user comfort. The padded straps, adjustable waist belt, and rigid 17.5 L tank ensure a stable and secure hold during operations.

Key Features:
- Capacity: 17.5 L
- Empty Weight: 2.59 kg
- Ergonomic backpack design with padded straps and adjustable waist belt
- Long-range nozzle (8□12 m) with anti-kink hose

Designed for field professionals, this backpack pump combines efficiency, comfort, and reliability, making it ideal for forest fire prevention and active firefighting.

Caractéristiques
