

HYDRAULIC FAN WF20

<https://www.securhit.com/en/ventilation/322-ventilateur-hydraulique-wf20.html> Hydraulic fan WF20

Description

Intrinsically safe, hydraulically powered exhaust fan for confined and underground spaces.

Triple function: positive pressure ventilation, extraction and misting.

Power: 4.6 hP at 10 bar.

Hydraulic inlet and outlet via DSP 45 half-couplings.

Compatible with DN 300 ducts and accessories with ZAG fittings.

Options: Ducting, misting, flow multiplier (for positive pressure ventilation) and foam injector/diffuser.

The WF20 hydraulic fan/extractor is reliable, intrinsically safe and comes with a 2-year warranty.

Certified flow measurements according to AMCA method.

Caractéristiques

- Dimensions : 400 x 310 x 310 mm

- Weight : 15.9 kg
