

HALLIGAN FORCING TOOL WITH NUPLA 91 CM FIBRE HANDLE

<https://www.securhit.com/en/forcible-entry-tools/327-outil-de-forcement-halligan-manche-fibre-nupla-91-cm.html>

Firefighters' Halligan axe

Description

Forged steel fire axe with flat head and fibreglass handle.

For use in fire-fighting, forcing, doorstops, etc. Cutting edge measures 15.24 cm.

Pre-equipped to insert a Halligan bar. The body is fully polished, hand-sharpened and the tip is tapered for a better cut.

The cutting edges are heat-treated for added safety. Rockwell hardness value: RC 45-55

The flat head is red in colour with the cutting edge varnished to combat rust.

The yellow handle measures 86 cm and is extremely strong, non-conductive and non-corrosive.

- Light weight advantage
- Forged steel ends
- Solid non-conductive Nuplaglas® handle
- Performs like steel
- Up to 35% less weight
