Firefighters' axe

Description

The DIN 14900 Firefighter Pick Head Axe is a professional rescue and firefighting tool designed to meet the demanding requirements of fire services, emergency responders and rescue professionals. Built for strength and durability, this DIN 14900-FA fire axe features a forged steel head with a pick and blade (adze), making it ideal for forcible entry, breaching and rescue operations. Its hickory wood handle provides excellent shock absorption, durability and a secure grip, while the reinforced metal handle fittings ensure maximum strength and long service life under demanding working conditions.

Key Features

- Compliant with DIN 14900-FA standard
- Forged steel pick and adze head for firefighting and rescue operations
- High-strength hickory wood handle
- Reinforced metal handle fittings for enhanced durability
- Heavy-duty construction for professional use
- Excellent balance of strength, reliability and impact performance
