

GENIUS SIMPLE ACCESSORY BAG

<https://www.securhit.com/en/harnesses-and-belts/331-sac-accessoire-genius-simple.html>

Genius accessories bag

Description

Easy to attach to the harness, GENIUS lets you store small tools in a pocket with a click-and-click fastening system. This express closure, combined with a rigid opening, prevents equipment from getting lost. And for temporary outdoor storage, the pocket has a magnetic plate. GENIUS is available as a single pocket or in sets of three with an external tool holder.
