

FOLDABLE DRAIN COVER 750 X 630 MM

<https://www.securhit.com/en/depollution-nrbc/334-plaque-d-obturation-magnetique-pliable-750-x-630-mm.html> Foldable drain cover

Description

The cover can be applied in case of leakage of dangerous substances and imminent environmental accident for all steel and horizontal plastic sewer grates. It can be especially used also for grates with side gate. It is applied to a clean grate by attaching the cover with its membrane side down, i.e., the inscription side up.

The cover can be efficiently and quickly applied, easily foldable, there is a possibility of repeated use, versatile application to all types of grates and it's usable also for grates with side gate.
