

5 L PRESSURE SPRAYER

<https://www.securhit.com/en/capture-d-animaux/338-pulverisateur-a-pressure-5-l.html> 5 L Profi pressure sprayer

Description

The plastic tank with a fill capacity of 5 l (total contents 8 l) is equipped with a base, which ensures that the tank has a sturdy foothold even with a low filling level or on an uneven surface.

The 40 cm long, 360° rotatable brass spray wand features a brass hollow cone nozzle with a 1.1 mm orifice.

The spiral hose, which can be extended to a length of 250 cm, is space saving and provides the user with a large radius of action.

The ergonomic shut-off valve with integrated pressure gauge with indicator supports the environmentally friendly and economical use of agents and enables comfortable, fatigue-free work; the integrated, professional filter protects the nozzle against dirt.

The integrated filling funnel for convenient filling of the device, spray wands and extension wands that can be stored optimally on the device and the piston pressure gauge with installed safety valve offer a comprehensive set of equipment for the 3275M model.

The use of high-quality FPM seals also makes it possible to use various, slightly acidic media.

The robust MESTO 3275M is ideally suited for professional use.

Caractéristiques

- Capacité de remplissage : 5 L
- Pression de service maximale : 3 bar
- Longueur du tuyau : 250 cm
