

## APOLLO TRAINING EXTINGUISHER WITH BUTTON 6L AUXILIARY PRESSURE

<https://www.securhit.com/en/training-accessories/35-extincteur-de-formation-apollo-avec-bouton-6-l-pression-auxiliaire.html>

Fire extinguisher for training and education

### Description

Apollo Led 6L fire extinguisher auxiliary pressure allows to prepare the participants to know how to react in case of a fire situation.

Sometimes it is better not to use an extinguishing agent, The Apollo Training Fire Extinguisher allows students to learn all the correct procedures without the mess.

Use without the need for a fire, water, foam or powder.

Built-in sound effects that replicates a sputtering extinguisher when empty.

The virtual tank gradually empties while extinguishing.

Comes with stickers in Dutch, English, French and German.

Rechargeable battery power supply.
