100 KG ADULT MULTI-PURPOSE FALL TEST DUMMY

https://www.securhit.com/en/rescue-mannequins/361-mannequin-de-degagement-polyvalent-adulte-100-kg-pour-test-de-chute.html

Training dummy ideal for testing equipment in the event of a fall

Description

As the name suggests, this manikin is the perfect choice for testing fall arrest equipment and harnesses. It is has a more rigid trunk to reduce slumping when suspended in a harness and will allow you to properly assess the safety of your fall arrest equipment.
 Similar in construction to the Duty Range manikins but utilises closed-cell foam to the trunk to provide greater rigidity and reduce 'slumping' when using a rescue harness.
 Anatomically correct weight distribution gives the 'feel' of an unconscious person - perfect for pole top or tower rescues.
 Realistic sizes and weight 100kg! - will demonstrate the difficulties of dealing with an adult unconscious casualty
 Strong Polypropylene webbing loop to the back allows the manikin to be easily hauled into position prior to training.
 Strong enough to be dropped from 2 or 3 storeys with no damage - these manikins are tough!
 The Polyester is waterproof, making it suitable for training in wet or dry conditions as it can be easily cleaned and dried.
 Soft body joints eliminate the risk of pinch welts and bruising, a common injury when using plastic bodied manikins.
 Protective consumables including, coveralls and boots, greatly extended the life of the manikin and help save you costs.

Caractéristiques

- Weight : 100 kg
- Size : 1.8 m
