

100 KG ADULT MULTI-PURPOSE FALL TEST DUMMY

<https://www.securhit.com/en/mannequins-de-sauvetage/361-mannequin-de-degagement-polyvalent-adulte-100-kg-pour-test-de-chute.html> Training dummy ideal for testing equipment in the event of a fall

Description

As the name suggests, this manikin is the perfect choice for testing fall arrest equipment and harnesses. It has a more rigid trunk to reduce slumping when suspended in a harness and will allow you to properly assess the safety of your fall arrest equipment.

- Similar in construction to the Duty Range manikins but utilises closed-cell foam to the trunk to provide greater rigidity and reduce 'slumping' when using a rescue harness.
- Anatomically correct weight distribution gives the 'feel' of an unconscious person - perfect for pole top or tower rescues.
- Realistic sizes and weight 100kg! - will demonstrate the difficulties of dealing with an adult unconscious casualty
- Strong Polypropylene webbing loop to the back allows the manikin to be easily hauled into position prior to training.
- Strong enough to be dropped from 2 or 3 storeys with no damage - these manikins are tough!
- The Polyester is waterproof, making it suitable for training in wet or dry conditions as it can be easily cleaned and dried.
- Soft body joints eliminate the risk of pinch welts and bruising, a common injury when using plastic bodied manikins.
- Protective consumables including, coveralls and boots, greatly extended the life of the manikin and help save you costs.

Caractéristiques

- Weight : 100 kg
- Size : 1.8 m
