Folding rubber hose ramps for crossing hoses

Description

Made entirely of rubber for a better grip on the ground, especially when vehicles pass over it, these planks can also be folded to optimise storage in the intervention vehicles.
Integrated fluorescent devices for better visibility.
Integrated coupling system to connect the planks to each other.
Axle weight: 13 tonnes.

THE '+' PRODUCT
The folding crossing beam offers :
- an ergonomic grip (integrated carrying handle)
- quick set up
- compact: easy storage
- compatibility with traditional planks
- increased visibility thanks to the presence of retro-reflective strips

Model in DN70 mm foldable
- Weight: 11.5 kg
- Size: 890 x 368 x 95 mm (open) / 455 x 368 x 190 mm (closed)

Model in DN100 mm foldable
- Weight: 19.5 kg
- Size: 1200 x 368 x 132 mm (open) / 610 x 260 x 300 mm (closed)

Caractéristiques

- Poids supporté par essieu : 13 tonnes
