LUMAPHORE® XL LED Floodlights - High-Power Lighting, 2,400 to 4,500 m² Coverage

Description

The LUMAPHORE® XL series features our most versatile LED floodlights, designed for high-intensity area lighting for firefighting, emergency response, and professional intervention teams. The compact models (300XL and 600XL) include 4 additional LEDs at the bottom for enhanced ground illumination. The high-power 1000XL model features 8 additional bottom LEDs for maximum light coverage. The control box provides a ON/OFF switch and allows 180° or 360° lighting adjustment, enabling flexible and precise illumination.
