LUMAPHORE LED XLG Series: High-Power Dimmable LED Lighting Balloon

Description

The LUMAPHORE LED XLG Series is a range of high-power professional LED lighting balloons delivering powerful 360° area illumination with fully adjustable intensity. Thanks to its integrated dimming system, it allows precise control of light output while optimizing energy consumption. Designed for demanding environments, the XLG Series combines power, durability, and operational flexibility, with simple control via a dedicated control box.

Adjustable Intensity LED Lighting

The XLG Series features light intensity dimming, allowing operators to adjust output according to field requirements:

- Continuous brightness adjustment
- Adaptation to working conditions
- Energy consumption optimization
- Improved visual comfort

Technical Specifications

LUMAPHORE 600 XLG

- Luminous flux: 76,200 lumens
- Illuminated area: up to 3,200 m²
- Power consumption: 520 Watts
- Voltage: 230 Volts
- Protection rating: IP65 / IK10
- Weight: 8.7 kg

LUMAPHORE 1500 XLG

- Luminous flux: 220,800 lumens
- Illuminated area: up to 6,000 m²
- Power consumption: 1500 Watts
- Voltage: 230 Volts
- Protection rating: IP54 / IK08

- Weight: 17 kg

Key Benefits

- Powerful and uniform 360° lighting
- Integrated dimming via control box
- Very large illuminated surface area
- Instant start with no warm-up time
- Simple and fast operation
- Secure transport in flight case
- Suitable for demanding environments

Caractéristiques

- Tension : 230 Volts
