Description

The ECCOTARP collapsible spill bunds are versatile protective equipment made of chemically resistant material (PVC reinforced fabric). They are portable, lightweight and easily shapeable. That is why they are effective especially in fast deployment during accidents. Their advantage is their adaptability to various obstacles and uneven surfaces. Due to their resistance to chemicals and petroleum products they can be used in a wide range of applications, especially in emergency services, petrochemical industry, logistic and industrial warehouses, lorry transport and shipping, during elimination of machinery defects on shop floors, at the airports and in the ports, in agriculture and forestry, i.e. everywhere where hazardous substances might leak.

Collapsible spill bunds Cargo do not have welded corners, so they can be conveniently arranged around a pallet and then lifted by a fork lift or pallet truck (□sandwich□: pallet, bund, pallet inside). The bunds have light-weight reinforcements in the side walls.

Cargo EUR bunds have perfect dimensions for being arranged around EUR-pallet. Their volume is 210 litres.

Cargo DP bunds have a square shape and their volume is 300 litres.
