Description

The ECCOTARP open temporary tank with metal frame is a portable, high-capacity solution for emergency water storage, spill containment, and firefighting operations. Designed for rapid deployment, it is ideal for wildfire suppression, industrial spill response, and environmental protection.

Made from high-strength PES fabric coated with PVC, this foldable containment tank offers excellent resistance to chemicals, hydrocarbons, and petroleum products. Its lightweight and portable design allows for easy transport, compact storage, and quick installation.

The sturdy metal frame ensures stability on uneven surfaces, making it a reliable choice for temporary water reservoirs or emergency containment systems.

This type of foldable tank with metal support is particularly suited for helicopter firefighting operations with Bambi Buckets or for water pumping and storage in hard-to-reach locations.

Thanks to its chemical and hydrocarbon resistance, it is widely used across industries such as: petrochemical, logistics, maritime and road transport, industrial workshops, airports, ports, agriculture, and forestry.

ECCOTARP Tank Benefits

- Quick and easy installation in emergency situations
- Robust metal frame for maximum stability
- Chemical- and hydrocarbon-resistant PVC/PES material
- Foldable and lightweight for convenient transport and storage
- Suitable for firefighting and environmental emergency operations
- Compatible with helicopter firefighting (Bambi Bucket) operations

Technical Specifications

- Product type: Open temporary tank with metal frame
- Brand: ECCOTARP
- Material: High-strength PES fabric coated with PVC
- Chemical resistance: Resistant to chemicals and petroleum products
- Operating temperature range: -30 °C to +70 °C
- Filling: Top fill elbow with C52 connector (B75 or custom on request)
- Drainage: Bottom fill/discharge valve (type depends on client configuration)
- Maximum slope: 8 %
- Available capacity: 5,000 □ 50,000 liters

Caractéristiques

- Volumes disponibles : 5000 à 50000 Litres
