

FLAME PASTE

<https://www.securhit.com/en/training-accessories/39-gel-inflammable-emission-fumee-reduite-4-x-1-l.html>

Flammable paste for application on training supports at extinguishing

Description

Paste under gel form, applicable on training support or usable for ignition of various flames sources (directed fires, in special manikins, etc...).

Generate regular flames, with smoke emissions

Adheres on vertical surfaces.

The versions with low smoke emissions can be used inside.

Can be used safely without breathing apparatus.

Caution: the flame paste must be applied only on supports or manikins made for this effect and flame retardant in consequence.

Caractéristiques

- Weight : 4.3 kg
- Content : 4 x 1 L
