Lumaphore LED 600 XL

Description

The LUMAPHORE® LED 600 XL is the most popular of our range. Its small size and light weight will make the LUMAPHORE® 600 XL an asset on all your intervention areas. It is a compact product and at ELC we wanted it to be powerful as well. Indeed, the LUMAPHORE® 600 XL develops a light power of 76 200 lumens for only 600W.

It is delivered as standard in its flight case and is equipped with a suspension ring and a 26 mm sleeve. LUMAPHORE® LED modules have a life span of 50 000 hours.

The LUMAPHORE® 600 XL is water, dust, shock and wind resistant: IP65 - IK10. It can withstand winds of up to 162 km/h. All these elements make the LUMAPHORE® 600 XL your ally for the safety of your work sites.

It is no coincidence that the LUMAPHORE® 600XL is the most popular light balloon in the XL range. Its unique design and compact size make it suitable for all types of construction sites.

Lightweight and practical, it can be deployed quickly in the field, with an average set-up time of only 2 minutes. Its power is also one of its main assets: the LUMAPHORE® 600XL can easily illuminate an area of more than 3000 m².

The LUMAPHORE® 600 XL has advantages of compactness, power and mobility appreciated by different sectors: rescue, construction, events, cinema and many others.
