High-Performance explosion-proof LED spotlight for professional emergency applications

## Description

The XPR-5582RX INTEGRAS explosion-proof spotlight is a high-performance portable lighting solution designed for firefighters, emergency response teams and hazardous environments. Equipped with four high-intensity LEDs and a 180° articulated head, it delivers up to 1,750 lumens with a narrow, focused beam capable of illuminating objects up to 552 metres away, even in heavy smoke.
Its adjustable articulated head and versatile design allow the XPR-5582RX to be used both as a portable flashlight and as a standalone area light. Its integrated rubber base allows the spotlight to be positioned vertically on any flat surface, providing stable and adjustable area lighting when required. The spotlight is manufactured from thick-walled glass-filled nylon and weighs only 1.219 kg. Its rugged construction and IP67 protection rating make it suitable for demanding professional applications and difficult operating conditions.
For extended runtime, a 600-lumen low-power mode can be activated by holding down the switch. Runtime can reach up to 11.5 hours, providing useful illumination during longer emergency operations.
Two rear-facing green LEDs provide passive visibility, making the spotlight easier for team members to locate during operations and improving situational awareness.
The XPR-5582RX features an integrated rechargeable lithium-ion battery and is supplied with a charging base, AC charger, direct-wire DC charging cable with an inline fuse, and a carrying strap.
Specifications
- Maximum light output: 1,750 lumens
- Low-power mode: 600 lumens
- Maximum low-power runtime: 11.5 hours
- Runtime at 1,750 lumens: 5 hours
- Beam distance: up to 552 m
- Light source: 4 high-intensity LEDs
- Head: 180° articulated and adjustable

- Rear LEDs: 2 green locator LEDs
- Battery: Integrated rechargeable lithium-ion battery
- Indicator: Low-battery indicator
- Charger: Locking plug-in charger
- Base: Rubber base for upright positioning
- Shoulder strap: Removable
- Protection rating: IP67
- Dimensions: 19.2 × 10.8 × 14.8 cm
- Weight: 1,219 g

Certifications and Hazardous Location Ratings
The XPR-5582RX spotlight is certified for use in various environments where potentially explosive atmospheres may be present.
- Class I, Division 2: Groups AD, T3
- Class II & III, Division 2: Groups FG, T135°C
- Class I, Zone 2: Group IIC, T3
- Meets the requirements of NFPA 1971-8.6 (2013)
- cETLus certified

Package Contents
- XPR-5582RX explosion-proof spotlight
- Integrated rechargeable lithium-ion battery
- Charging base
- AC charger
- Direct-wire DC charging cable with inline fuse
- Carrying strap

## Caractéristiques

- Dimensions : 19.2 x 10.8 x 14.8 cm
- Weight : 1 219 g
- Waterproofing : IP-67
