Throwable catch net

Description

Capture net for poultry and non-biting animals. Capture net for animals with leaded edges. Very practical net for capturing or immobilising a nearby animal.

Cast capture net, rope around the perimeter of the net weighted with lead for better casting and also allows the net to be tacked to the ground on all sides to prevent the animal escaping.

Made from braided polyamide.

Caractéristiques

- Diameter : 1.6 mm
- Size : 2 x 2 m
- Mailles carrée : 50 x 50 mm
